(206) 685-9017

RESEARCH FOCUS

Local Group satellites, dwarf galaxy quenching. Stellar halos and their origins. Large astronomical surveys.

EDUCATION

Ph.D, Astronomy, June 2015

University of Michigan, Ann Arbor, MI.

Dissertation: Satellite Quenching and the Lifecycle of Dwarf Galaxies, Advisor: Eric Bell.

B.S., Astronomy, June 2009

Case Western Reserve University, Cleveland, OH.

POSITIONS

September 2015 — Present

Postdoctoral Researcher - University of Washington

LSST Data Management Subsystem Science Team Staff

August 2009 — August 2015

Ph.D. Student, University of Michigan.

INVITED AND CONTRIBUTED TALKS

Contributed Talk, Hotwiring the Transient Universe V, Villanova University, October 2016.

Invited Talk, LSST Project and Community Workshop 2016, Tucson AZ.

Invited Talk, Stellar Streams in the Local Universe, Ringberg Castle, July 2015.

Contributed Talk, Local Group Astrostatistics, University of Michigan, June 2015.

Invited talk, University of California, Berkeley, Cosmology Seminar, November 2014.

Invited talk, Ohio State University CCAPP Seminar, October 2014.

Contributed Talk, Santa Cruz Galaxy Formation Workshop, August 2014.

Contributed Talk, Pan-STARRS Workshop, Durham, UK., August 2012.

Contributed Talk, Galactic Archaeology Surveys conference, Sydney, AU., July 2012.

ACCEPTED OBSERVING PROPOSALS AS PI

“Deep follow-up of two new distant satellites of Andromeda”, Gemini 2012B, 8 hours

“Quantifying substructure in the stellar halos of spiral galaxies”, Magellan 2012B, 1 night.

PROFESSIONAL SERVICE

Local Organizing Committee, “Local Group Astrostatistics” conference, University of Michigan, June 2015.

Referee for ApJ, MNRAS, A&A.
Hubble Space Telescope Panel reviewer for Cycle 25.

TEACHING EXPERIENCE

Developed and implemented data-based research “challenges” for intro courses, Fall 2013–Spring 2014.
Conducted discussion sections/labs for Astro 101 & 102, Fall 2010–Spring 2011.
